HTML & CSS Group Assignment: Café Shop Showcase

Objective:

Create a well-designed website that showcases a café shop of your choice using HTML and CSS. Work in a group of 3 to build a visually attractive and informative webpage.

Project Structure Instructions:

1. Create a new folder named after your café (e.g., sunny-cafe).

2. Inside the folder, create the following files:

   - index.html – The main webpage

   - styles.css – External stylesheet

   - menu.html – A separate page showing the café's menu

   - about.html – A separate page with more information about the café and its team

   - A subfolder images/ – For your images (café, menu items, team, etc.)

HTML Pages Required:

✅ index.html (Home Page)

- Name of the Café

- High-quality photo of the café front or logo

- Short welcome or slogan

- Navigation bar linking to: Home, Menu, About, Contact section

- A short introduction (2–3 paragraphs) about the café

✅ menu.html

- At least 3 categories (e.g., Coffee, Snacks, Desserts)

- Each category should include: Item name, Description, Price, Picture (if possible)

✅ about.html

- Description of the café's history

- Information about the founders or team

- 2–3 staff member photos with names and roles

- Opening hours

- Café location (embedded Google Map optional)

CSS Styling (styles.css)

- External CSS only (no inline styles)

- Use: Fonts (Google Fonts allowed), Color palette, Box shadows, hover effects, etc.

- Style the navbar and footer

- Add styling for menu items (cards, hover effects, etc.)

Team Work Distribution (Required)

- Each team member must contribute to coding and design

- Each member is responsible for one full page (index, menu, about)

- Include a comment in HTML like: <!-- Created by [Student Name] -->

- List team members' names in the footer

Additional Requirements:

- Use at least 15 different café menu items

- Use semantic HTML5 tags properly: header, nav, main, section, footer

- Ensure all pages are responsive and linked correctly

- Check that all images display and CSS is working

- Code must be clean and commented

Submission:

- Submit the entire project folder

- Project must be completed and submitted before 21/08/2025

- No copy-paste templates allowed from online sources (W3Schools is only for reference)

Evaluation Criteria (Group Total: 100 marks)

Criteria	Marks
Proper HTML Structure & Linking	15
Responsive Navigation & Page Linking	10
Menu Page Content & Design	15
About Page Content & Layout	10
CSS Styling & Theme Design	20
Code Cleanliness & Comments	10
Image Usage & Visual Presentation	10
Team Collaboration & Individual Contribution	10
